### The consistory recently gave approval for updating our video recording equipment in the sanctuary.

The new equipment will be able to live stream services instantly and seamlessly with new features that should really improve viewing and sound quality.

We know many people within our church, and even many who are not congregants, are taking advantage of our online services. With that in mind, we would like to offer the opportunity to you as a congregation to help fund this project which will total approximately \$24,000. We as a Consistory feel this is a worthwhile project, especially considering the circumstances of the last few months which has created a lot more online viewership. God always opens a door where another goes shut which is very evident to us in this process. We realize online services cannot ever replace corporate worship but it does create another opportunity to worship our wonderful God. If you would be interested in supporting this project, please designate the money towards "Sanctuary Video Equipment" Thanks for your support!
